

PM HOPPER DRAWER MAGNET

FEATURES

- High power Drawer magnets with standard 100 to 300mm inlet and outlet in Round or Square profile for easy retrofit to Hoppers.
- Choice of single or double layered magnetic drawers
- Magnetic drawer made from powerful Rare Earth magnets for ambient temperature operations
- Drawer easily removable for cleaning
- High temperature magnets available optionally
- Food grade Stainless Steel construction

All dimensions are in mm

s =single row, d=double row, R=Round flange, S= Square flange

APPLICATIONS

- Attracts tramp iron pieces from inflow of materials in hopper.
- Used particularly in plastic, chemicals, grains, cosmetics processing for powder separation.
- Concentrated magnetic field in the magnetic rod provides high grade attraction.

Product specification varies with specific application needs. Discuss your requirement with us for the most suitable product.

PM

PLATE MAGNET

FEATURES

- High power, low cost magnetic plates for inflow separation in chutes.
- Can be mounted under the flow by bolting.
- Can be hanged over the flow from from top with hinge/latch.
- Magnet poles are saturated for maximum power.
- Made with Strontium Ferrite/Rare Earth NdFeB magnets.
- Magnet can be easily removed for cleaning.

APPLICATIONS

- Can attract tramp iron pieces by suspending over conveyor belt or under chute. Used particularly in flour, plastic, glass, chemicals, grains, cosmetics processing for powder separation.

Product specification varies with specific application needs. Discuss your requirement with us for the most suitable product.
