

FEATURES

- Steel and brass solidly pressed laminated top plate.
- Extremely low height for better job accommodation and easy disposal of grinding dust.
- Made with super powerful NdFeB, new generation magnets.
- Progressive power is obtained by rotating the lever to 180.
- Unique design of the chuck minimizes the movement of top plate when switched on, resulting in better job accuracy.

APPLICATIONS

- Most suitable for EDM, grinding and similar applications.
- Enables grinding of thin and small work pieces that hitherto presented problems in holding.
- Stable magnet grid movement provides highest precision grinding.

Package includes Allen Key, Bolts, Toe-clamp & T-nut
 Pole Pitch : Fine - 0.5mm brass + 1.5mm steel
 (standard power - 10kg/cm² for thinner components)
 Standard - 1.0mm brass + 3.0mm steel
 (high power - 12 kg/cm² for larger components)

Product Code : NEG

All dimensions are in mm.

PART NO	TOP PLATE		POLE PITCH	HEIGHT	
	L	W		H	
1070	100	70	2 (0.5 + 1.5)	50
